## Summer Vacation Assignment- 2023

### Integrated project work of Science and Technology Department

Grade: VI

TFs- Rhitu Shrestha (9818590433), Mahendra Sharma

1. Make a 3D model of cube and cuboid and measure their exact length, breadth and height. After that find their volume using given formula. [Volume of cube=  $L^3$ ] [Volume of Cuboid=  $l \times b \times h$ ].
2. Also write which instrument you used to measure their length, breadth and height. Make a picture of that instrument?
3. Observe packaging of any 5 food items used at your home and note down their mass along with the percentage of ingredients and chemicals used to make these food. Also convert their mass into kg.

Note:

1. Use cardboard to make the model. You can refer to you tube videos to make model.
2. Rest of the works should be done in A4 paper.
3. You can decorate your work. However try to keep it minimal and look tidy.
